DETAILED ACTION

Allowable Subject Matter

Claims 32-38 are allowed.

The following is an examiner's statement of reasons for allowance for all claims: The most relevant prior art of record, the *Buist* reference, fails to disclose enabling a financial advisor to search for and monitor real time information from an investor trading system regarding an active client transaction at the investor trading system and to analyze the impact of the active client transaction and determine alternative asset allocations and specific investment alternatives and intercede in the active client transaction at the investor trading system in real time by entering or correcting client transaction orders through the display based on information obtained from one or more selections of the application menu and the market data function menu.

Updated searches revealed no references that disclosed the claimed inventions, nor were any secondary references identified which could be reasonably combined with *Buist*.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

The drawings submitted September 10, 2004 are acceptable.

The *Takamoto* reference is cited for its disclosure of asset allocation
